European Financiers Take Glimpse of Beginning of Hostilities in Balkans.

## ADROP IN NEW YORK

Canadian Pacific Leads the Decline; Union Pacific and the Coppers Weak.

NEW YORK, Oct. 11.—The foreign situation loomed larger on the local financial horizon today. Overnight news from London and other European points was of an alarming tenor, and these were followed by enormous sales of American stocks in London, Paris and Berlin. The German and French capitals were centers of demonstrations and the usual, had to bear the brunt of their heavy outpouring. Sales for American account were estimated at \$100,000,000.

Canadian Pacific was the storm center in the market, declining 8 points in Berlin, and with half that loss in London, and opening here with a decline of 12 points. From this level it made some recovery, only to sell lower in the balance of the market in the afternoon and closing with a net decline of 10 points. Union Pacific was next on the list, but the Hill (grangers, United States Steel, and others) were only slightly affected, and the market was not so critical as it had been. Local traders evinced disposition to cover contracts, basing their operations on the belief that the holiday here adds to the critical state of the market conditions abroad. Private discounts were above the bank rate in London and private cables to international bankers indicate an early advance to 5 per cent by that institution at week.

Stocks were weak in sympathy with the total sales, par value, aggregating \$1,250,000,000.

United States government bonds were charged on call.
